

LICENSE ORDINANCE  
PASSED YESTERDAY  
CHANGES MADE IN LICENSES  
FOR NEXT FISCAL  
YEAR

ROUTINE BUSINESS  
Except on Vending Machines Few  
Changes Made—Milk Ordi-  
nance Postponed.

The license ordinance for next year received the third reading before the city council last night and was adopted. The ordinance provides a few changes to be made in the license for next year. Other work of the city council was to consider the proposed milk ordinance as recommended by the city board of health. This ordinance was tabled until the next meeting, in order to give the council time to investigate conditions to see if they warrant such a drastic measure.

Routine business of going over the license ordinance and making changes and modifications occupied the attention of the city fathers for the remainder of the meeting.

Some of the changes in the ordinances are important. First, a change, or rather a new ordinance is passed, imposing a license on automobile salesmen, non residents, giving demonstrations in the city. The license for this is \$5.00 whether or not a sale is made.

The second change is in the license of bottlers. The second clause of this ordinance is changed, making the license of bottles, whose business exceeds \$5,000 per annum, \$35 per year instead of \$40.

The dairy or milk dealers license is left unchanged for the present, though it is expected that some amendment may be made.

The license of junk dealers was raised from \$10 to \$50, and instructions were given to enforce the present ordinance regulating the sale and purchase of material known as junk.

Merchants dealing in fresh oysters and fresh sausage are required to pay an extra license of \$5 per year.

Piano tuner's licenses are raised from \$5 to \$10. Typewriter repairers are also charged a license of \$5.

The question of whether or not peanut stands and lunch wagons would be allowed on the square was brought up, but no formal action was taken.

Slot machines, or mechanical vendors are to be taxed \$5 per machine.

With a short session of other matters of minor importance, the meeting adjourned. The next meeting of the city fathers is to be held Friday, December 16.

**At Fair Play School.**  
The Fair Play school will give a play entitled, "The Old School," at Hickory Hollow on Thursday night, December 23rd in the school auditorium, beginning at 7:30 o'clock. There will be a small admission fee, the proceeds to go to the general improvement of the school. The public is cordially invited.

TURBINE ENGINE IS  
GIVEN SEVERE TEST  
MR. CONNOR'S INVENTION  
MADE COMPLETE AT AN-  
DERSON SHOP

WAS SECOND MODEL  
Result of Tests Under Difficulties  
Was Satisfactory to the  
Inventor.

A second model of a rotary engine has been completed at the Anderson Machine and Foundry company's plant for Mr. T. C. Connor of this city. Mr. Connor invented this machine and has been working on this second model some time. His work has at last become almost perfect and the results attained on Saturday afternoon at the foundry were very satisfactory.

The machine itself is built on a highly good principle. Like all rotary motors, it has a case and a revolving axle fitted with blades which the steam strikes while expanding. This is somewhat modified in the blades, which are not really blades, but sections of steel, and revolve rapidly when under pressure. One of the best features of the machine is the fact that the steam is brought into the engine in the middle, and not at one end. In many models, the steam being brought in at one end, causes a lateral pressure, producing a large amount of friction at one of the end bearings.

Another strong point, mechanically speaking, is the fact that in the motor, the steam is reversed, that is, it is run through one set of blades, and then through the exhaust on to another set, but this time it is reversed, and striking the second set, exerts its force on them. This gives the pressure of the expanding steam on both sides to two sets of blades, besides the longitudinal pressure, produced by the steam coming from the boiler and striking on the first set of blades.

The machine was severely tested on Saturday. The boiler to which the motor was attached has once been condemned and to have over 60 pounds of pressure would be dangerous. The motor was tested first with 40 pounds pressure. With 40 pounds pressure, a speed of 1,200 r. p. m. was attained, at 50 pounds pressure, a speed of 1,450 r. p. m. and at 60 pounds, a speed of 1,600 r. p. m. with a small fan attached. The fact that the increase of speed was greater on the increase of steam between 50 and 60 pounds than it was between 40 and 50 pounds leads the inventor to believe that with a much higher pressure, and with superheated steam, a new record in efficiency and speed may be attained.

Other severe and rigid tests are to follow the ones on Saturday. Some few changes may yet be made by the inventor, but practically the machine is now complete. Interest is manifested in this machine, for it is one of the first "really" practical inventions that have been entirely made in Anderson.

**DEATHS**

**MORRELL CHAMBLEE DEAD**  
Body Will Be Brought to Anderson  
Today and Funeral Held at 3:00.  
News was received in Anderson of the sudden death in Social Circle, Ga., Sunday of Mr. Morrell Chamblee. The remains will be brought to Anderson this morning at 9 o'clock and the funeral will be held this afternoon at 3:30 o'clock at the home of his sister, Mrs. G. T. McGreggor, on Greenville street. The following gentlemen will serve as pallbearers: Ben Peartman, Sam Skelton, Willie McGee, Elias McGee, John Pruitt and Fred Dean.

Two of Mr. Chamblee's brothers, Messrs. Reeves and Rufus, went to Social Circle to accompany the body to Anderson. The widow and their one child will arrive this morning with the funeral party. Mr. Chamblee was ill only a short while, death being due to apoplexy.

**Joe Bryson.**  
Joe Bryson, the 19-year-old son of Mr. Ozie Bryson of the Centerville section died at the home of his father Monday morning at 1 o'clock. The funeral was held Monday afternoon at the New Hope church.

**Mrs. Mary Greer.**  
Mrs. Mary Greer, the wife of R. A. Greer of Hart county, Georgia, died at her home December 8th, and was buried at Cross Roads Baptist church in Hart county. She was 70 years old and leaves her husband and five children.

**Mrs. Fannie Hannebunt.**  
Mrs. Fannie M. Hannebunt, aged 77, died Monday morning at 5 o'clock at the home of her daughter, Mrs. F. V. LeCroy on Ligon street. She is survived by her daughter, Mrs. LeCroy and one son, Rev. W. T. Hannebunt of Cedarville, Ga. The body was shipped to Red Hill, Ga., for burial Monday afternoon.

**Mrs. Valentine Improving.**  
Mrs. W. B. Valentine, who was operated on last Saturday at St. Mary's hospital, was reported yesterday as doing nicely. She had been ill for some time, and the news that the operation was successful and that she is resting well will be gratifying to her many friends.

TRAINS WILL SOON  
RUN TO NEW STATION  
PASSENGER SHEDS AND  
TRACKS OF C. & W. C.  
COMPLETED

ON SOUTH MAIN  
Cement Platform at Umbrella  
Shed Will Not Be at Pres-  
ent Time.

Plans are now to have trains running to South Main street over the C. & W. C. tracks by December 15. All of the track work has been completed for some time and is now in condition to be used. The passenger sheds have been finished, and are now complete, except for the cement walk. This cement walk will not be placed just now, but cinders will be substituted until the ground is sufficiently settled.

Mr. George Boyd, agent, in talking of the change stated that Mr. Charlie Minor, the ticket agent would be employed at the new building and that he would go there only for the trains. He will be employed at the freight station in the meantime.

To have the trains run to Main street will be the first step towards the realization of the plans made by C. & W. C. officials to have the freight and passenger stations of their lines located almost in the center of the city. As it stands now, the railway has come about as close to the square as they can, and the rest of their plans may be executed sooner than is generally expected.

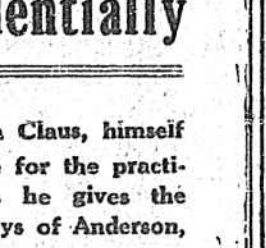

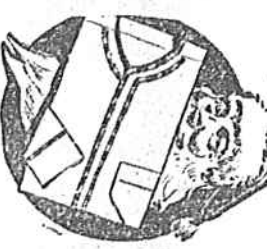

Though it is not officially announced, it is generally believed that the work on the freight station will be started soon, and that the passenger station may follow that. It is said that plans and blue prints for the new freight station have already been completed and are now in the hands of railway officials.

ROYAL ARCH MASONS  
ELECT OFFICERS

**D. S. Gray Chosen High Priest  
Burning Bush Chapter.**  
At a meeting of Burning Bush Chapter, R. A. M., held last evening, officers for the ensuing year were elected. The following were chosen:  
D. S. Gray, high priest.  
E. E. Ligon, king.  
W. F. Marshall, scribe.  
G. N. C. Boleman, treasurer.  
W. H. Fraser, secretary.  
A committee consisting of Messrs. Gray, Fraser and McClellan were appointed to make arrangements for the annual banquet, which will be held in the near future.

**A Roundabout Way.**  
"Mr. Roosevelt and his friends stick to the old fallacy, the fallacy that is now for the thousandth time so thoroughly disproved, that the best way to secure peace is to prepare for war," declared former Secretary Bryan at a luncheon some time ago, according to The Pathfinder. "Germany to secure peace prepared for war. So did Russia. So did France. So did England. Result, failure."  
"Wouldn't you think then, that people would now decide to try to secure peace by preparing for peace? You'd think so, wouldn't you?" But Mr. Roosevelt and his friends, clinging to the old, old methods, remind me of Bill Bailey's colt.  
"Bill Bailey had a colt that he fed in a box stall and watered at a trough in the yard. Then when the animal was six or seven months old Bill put it out to pasture on the other side of the creek. That colt, every time it got thirsty, did—what do you think? Every time it got thirsty it swam the creek and went up to the trough in the yard for a drink."  
**German Artificial Rubber.**  
Berlin, Dec. 13.—The Overseas News agency says: automobile tires being made in Germany from artificial rubber and says this will wear for a year with average use.
